CROP PRODUCTION: Agronomy: Horticulture: AGRO101 - Principles of Agronomy and Agricultural Meteorology: HORT181 - Production technology of fruit crops

Lessons

A Place to Call Home Meeting the Needs of Perennial Plants View Print; Advanced Backcross Breeding This lesson is a detailed explanation of the backcross breeding process. Variations based on whether backcrossing is performed with dominant, recessive, or multiple traits are discussed.

Gregor Mendel

Gregor Mendel, who is known as the "father of modern genetics", was inspired by both his professors at the Palacký University, Olomouc (Friedrich Franz and Johann Karl Nestler), and his colleagues at the monastery (such as Franz Diebl) to study variation in plants. In 1854, Napp authorized Mendel to carry out a study in the monastery's 2 hectares (4.9 acres) experimental garden, which was ...

Lysenkoism

Lysenkoism (Russian: ??????????????, tr. Lysenkovshchina) was a political campaign conducted by Trofim Lysenko, his followers and Soviet authorities against genetics and science-based agriculture. Lysenko served as

the director of the Soviet Union's Lenin All-Union Academy of Agricultural Sciences. Lysenkoism began in the late 1920s and formally ended in 1964.

This is a fabulous open door for the representatives from Universities and Institutes to communicate with the world-class Scientists.

Cotton Market Fundamentals and Monthly Cotton Price Outlook

Cotton Incorporated's Monthly Economic Letter, provides a unique analysis of the latest events affecting the world cotton market and world cotton prices.

Environmental Plant Science and Natural Resources Courses ...

Recommended Prerequisite: AGP 103 or AGN 115 or AGN 215. The history and policies surrounding management of soil and water resources will be considered, but the majority of class time will be used addressing the processes of erosion and nutrient loss, and the practices used to conserve natural resources and sustain productivity/function of cropland, pasture, urban, and wild landscapes.
