

Download Nikon Manual Lenses On Dslr

Using Manual Focus Lenses on Nikon DSLR Cameras

Great article. Perhaps it will inspire some people to take another look at these manual focus lenses for their cameras. The reason I went with a Nikon DSLR was because I already owned several Nikon AI and AI-S lenses. I still use a couple of them on a regular basis. The lenses are all set in the Non-CPU lens section of the menu.

How To Use Old Legacy Lenses On Your Modern Nikon DSLR ...

It's not just a sense of nostalgia that I enjoy, and when I transitioned to digital some many moons back, I didn't like the idea of those lenses tucked away, but they just weren't practical to be used on my then-current DSLR. Older lenses that were manual focus, like the legacy Nikon F-mount lenses, had brilliant optics and control, but ...

The Best Vintage Nikon Lenses for Your DSLR

Though Nikon still produces an autofocus version of this lens, the manual-focus version (which was axed in 2006) has far superior optical quality. When used as a portrait lens, the 85mm f/1.4 AI-S produces beautiful bokeh and is a favorite lens of many loyal Nikon shooters.

Nikon Lenses

Since its very first camera lens in 1933, Nikon has been tirelessly dedicated to crafting precision optics of uncompromising clarity, quality and reliability. From the depths of the ocean to the furthest reaches of space, Nikkor has always been the eyes of Nikon.

Using older lenses on your Nikon DSLR

Using older lenses on your Nikon DSLR January 1, 2012 Updated, see below. You want to buy an older - meaning manual focus without CPU - lens for your Nikon DSLR (or newer SLR)? First of all you should have a look at the manual of your camera body. Make sure that the lens you are interested in is not on the list of incompatible lenses or serial ...

Can I use Nikkor AI and AI

Can I use manual focus lenses on my Nikon DSLR? Yes, you can! Virtually all Nikkor lenses produced since the introduction of AI in 1977 can be mounted and used on virtually all Nikon cameras produced since 1977.

How to Use Nikon Lens on Canon DSLR

You might already have Nikon lenses, but want to make the switch to Canon DSLRs. This saves you money in purchasing new lenses. Or you own a Canon DSLR but like a specific Nikon lens, not available for Canon systems. The last reason might be that you prefer Nikon lens quality but prefer to use Canon DSLR camera bodies.

Old Glass: How to Use Old Film Lenses with New DSLR Cameras

For virtually every lens and camera combination there is an adapter that will enable you to use any lens with any camera – regardless of manufacturer. Here's an example: I have an old analog Nikon F3 that was given to me by my father along with a couple of lenses: a Nikkor 85mm f/1.4 and a Nikkor 50mm f/1.8.

Nikon D3500 DSLR | Interchangeable Lens Camera

Every Nikon DSLR lens offers a fun new perspective. Discover new worlds with an extreme close-up macro lens. Give your backgrounds a dreamy out of focus effect with a fast prime lens. Capture the whole scene with an ultra-wide-angle zoom lens. The possibilities are endless.

Manual lenses on a DSLR | Photo.net Photography Forums

On the 300 these manual lenses only require manual focusing and settings in fully auto or aperture priority. The camera does the rest. There are two caveats -- the camera's spot metering mode doesn't work with manual lenses (the center weighted does) and the 4/3rds sensor doubles 35mm focal length.

Why Every Photographer Should Use a Manual Focus Lens

Why Every Photographer Should Use a Manual Focus Lens. A Post By: Dustin Abbott. 0. ... Put simply, very few modern lenses in a Canon mount have an actual aperture ring. Nikon shooters get a few lenses with manual aperture rings (for some reason Zeiss lenses include one on Nikon [ZF] mounts.)

Camera Lenses | All NIKKOR Lenses for Digital SLR Cameras ...

The result of Nikon's dedication to innovation and excellence in the manufacture of interchangeable camera lenses is the comprehensive assortment of NIKKOR optics—marvels of clarity, consistency, precision and reliability.

Use Nikon Lenses on Canon DSLRs

First, my plan was to mount Nikon lenses on the D800 and Canon lenses on the 5D Mark III and look at images at 100% view, but then I realized that it would be tough to do a fair comparison, since the cameras are different. That's when I thought about using Nikon lenses on a Canon DSLR with an adapter.

Using old Nikon lenses on new 5200 DSLR

I am looking to move from Canon DSLR to the new Nikon D5200. I worked as a photojournalist in the 70's (UPI) and have a large collection of Canon F series lenses that are unusable on their DSLR cameras. A fellow photog who recently passed away left me his old Nikon Fs cameras and their lenses.

Old lenses on new cameras

Are old manual-focus lenses any good on a modern digital SLR or mirrorless camera? It depends what you shoot. If you shoot things that don't move - landscapes or still-life scenes - they're very good, and an absolute bargain to boot. You can get excellent old \$500 lenses for \$20 at the local pawn shop.

Understanding old Nikon lenses: AI, AI

If you have any interest at all in using older Nikon lenses, you probably have some understanding of the difference between non-AI, AI, AI-S, AF and AF-S lenses. The trouble is that places on the web that explain the differences easily get lost in the details. This article is intended to serve as a ...

You will see yourself playing around with Manual Mode like never before within matter of few minutes. I have used Nikon D7100 DSLR camera settings in this article. It is pretty much the same for all the Nikon DSLR Cameras. If you are a Canon DSLR owner please read [DSLR Basics: 8 Easy Steps to Learn Manual Mode for Canon DSLR Cameras](#).

How to use a manual lens on a DSLR?: Nikon SLR Lens Talk ...

I found a Nikkor HC f2 lens in excellent condition at an antique store for \$25.00. The glass is in perfect shape. It seems to fit (tightly) on an older D200 I have and I even snapped a couple of photos.

Nikon F

The F-mount has a significant degree of both backward and forward compatibility. Many current autofocus F-mount lenses can be used on the original Nikon F, and the earliest manual-focus F-mount lenses of the 1960s and early 1970s can, with some modification, still be used to their fullest on all professional-class Nikon cameras ...

No metering lenses on Nikon DSLRs | Flickr

This is a group for people using old Nikkor, Nikon or other brand lenses on modern Nikon DSLR's. There is a difference between using the manual focus lenses and the non metering ones. No metering means that you have to set aperture on your lens and adjust shutter speed on your camera to create a picture. Corrections are done by looking at your camera screen or your histogram.
