Chemical Engineering Interview Questions | GeekInterview.com

Chemical Engineering - 85 Chemical Engineering interview questions and 316 answers by expert members with experience in Chemical Engineering subject. Discuss each question in detail for better understanding and in-depth knowledge of Chemical Engineering

Chemical plant

A chemical plant is an industrial process plant that manufactures (or otherwise processes) chemicals, usually on a large scale. The general objective of a chemical plant is to create new material wealth via the chemical or biological transformation and or separation of materials. Chemical plants use specialized equipment, units, and technology in the manufacturing process.
